

Diva™ Pro PCI / Diva™ Pro PC Card

The Diva™ Pro is specially designed for telecommuters, office workers, remote LAN access users and imaging application users, who need the speed of ISDN, but also the ability to communicate with analogue resources.

The Diva Pro gives you a high-speed connection to all those services you are used to: e-mail, Internet access, send/receive fax, file transfer and corporate databases.

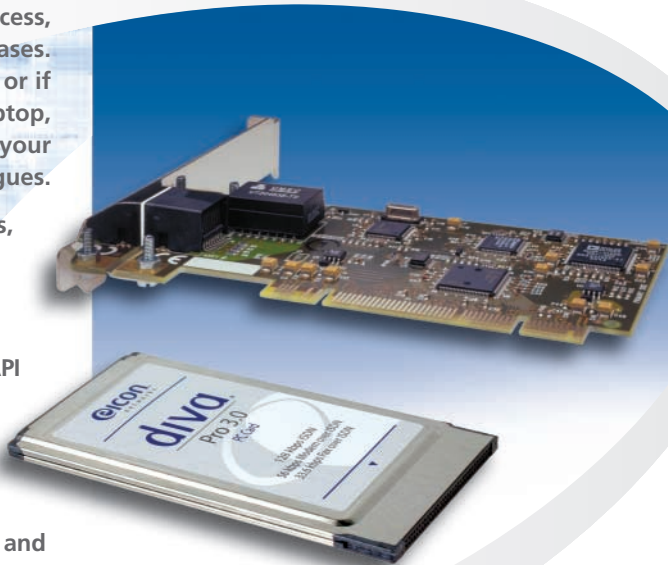

So, if you are using your PC to work from home or if your work takes you out on the road with your laptop, you still have access to the same systems as your office-bound colleagues.

Unlike many entry-level passive ISDN adapters, the Diva Pro features Digital Signal Processor (DSP) technology. All ISDN, Fax and modem processing is handled by the Diva Pro, not your PC/notebook CPU.

The Diva Pro supports the industry standard CAPI interface, so it works seamlessly with a wide range of third party ISDN applications: Fax, file transfer, bulletin board access and voice mail software.

Thanks to Plug & Play support and extensive use of wizard technology, the Diva Pro can be installed and working in your machine in less than 10 minutes.

Intelligent ISDN Adapter for the Professional

Key Benefits

Cost Efficient Performance

Fulfils All Your Connectivity Needs

Internet access, remote access, modem emulation, fax, file transfer. Whatever you need to communicate with, the Diva Pro will provide a straightforward connection without degrading the performance of your PC.

Supports Digital and Analogue Communications

Connect to ISDN and analogue devices - such as modems, bulletin boards, home banking applications and SMS services. With the Diva Pro you can connect to existing modem-based applications directly over your ISDN line.

Wide Application Support

Fully integrated with Windows XP, Windows 2000, Windows NT, Windows Me and Windows 98, Diva Pro supports WinFax, Microsoft Fax and other popular fax applications. It includes bonus software such as RVS-COM Lite, featuring Euro file transfer, digital answering machine as well as many other useful applications.

Easy to Manage

Setup Wizard

Provides an installation as simple as Plug & Play can make it.

Excellent Diagnostic Tools

Provide easy to understand information about the card's status in the unlikely event of a problem.

Extensive Certification

With Microsoft Signature and support for multinational ISDN protocols, Diva is ready for use internationally.

Five Year Warranty

Backed by one of the most extensive warranty agreements in the industry, with Diva you get real peace of mind from one of the world's leading ISDN manufacturers.

Additional Highlights

- ISDN Call Guard (control call charges, limit in/outbound telephone calls)
- Super G3 Fax (Fast Fax) at 33.6kBit
- V.90 client and server support at up to 56kBit
- Diva Assistant and ISDN line monitor in system tray
- Standard 5 meter cable (only PC Card)
- Bonus cables (only PC Card):
 - RJ45 dongle (RJ45)
 - 3 meter ISDN cable (RJ45)
- Bonus software:
 - RVS-COM Lite (Fax Group 4, Fax Group 3, Softmodem, answering machine, Euro file transfer)
 - Sygate Personal Firewall
 - pcAnywhere

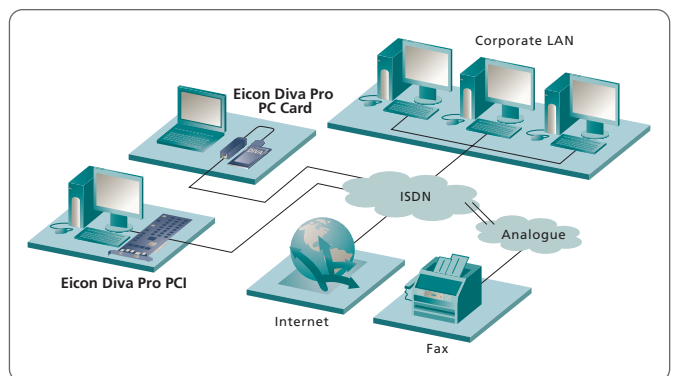

Technical Specifications

OS Support	Windows XP, Windows 2000, Windows NT, Windows Me, Windows 98
