

New Features in ZLD 4.32

Protecting Your Business & Customer

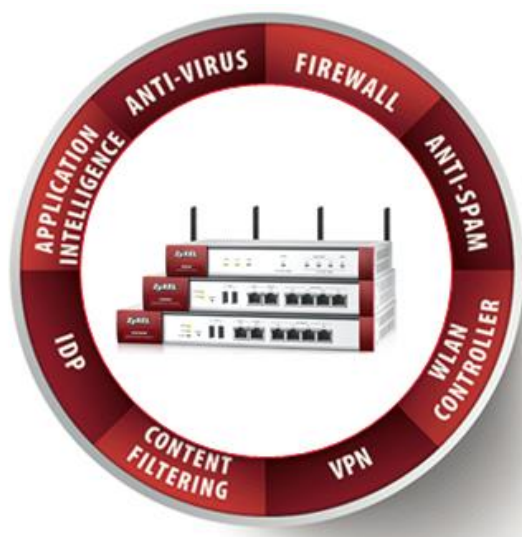

Empower Security, Improve Business

Extra Security and Convenience of Mobility with 2FA

- With **2 factor authentication (2FA)**, more and more companies are allowing their employees to work remotely. Since employees are able to access systems and critical work on the go, the **productivity** levels **increase** significantly. 2FA not only gives Enterprise/Business a **new level of security** also **reduce costs** that cut down the amount of time IT expert is sending resetting passwords.
