

## Omni directional 2 dBi antenna MIMO 2.4 / 5-6 GHz

Ceiling mounting

### Omni Directional Antenna MIMO 2 dBi

This antenna is ideally suited for use at the central access point for indoor applications. It is made for ceiling mounting for 2.4 or 5 GHz 802.11n MIMO technology providing high throughput with up to 3 streams.

Each antenna set includes:

- MIMO antenna with 3 coax cables of 1m length
- two sided adhesive tape for mounting

Technical Specifications of Antenna	
Electrical	
Operating Range	2.4-2.5 / 5.1-5.9GHz
Gain, dBi	2
Horizontal Beam Width, degree	360
Vertical Beam Width, degree	75
Impedance, Ohm	50
VSWR	1.5
Side lobe, dB	< -20
Mechanical	
Weight	182 g
Dimensions, mm	Diameter 172 / length 65
Radome Material	Aesthetic UV-inhibited white plastic
Polarization	MIMO
Connector Type	RP-SMA
