Support Information

Hardware Connections

1 Connect the **LAN** port to a PoE switch with IEEE 802.3bt or IEEE 802.3at PoE using an Ethernet cable.

2 Connect the **PWR** port to a power adapter (sold separately) and power source.

3 Connect the **USB** port to a USB storage device for storing files.

4 Connect the **Console** port to your computer using an RJ-45 to DB9 cable for local management.

5 Connect the **Reset** button to restore the Zyxel Device to its factory default settings. Press the button for more than 5 seconds and less than 10 seconds to restart the Zyxel Device. Press the button for more than 10 seconds to restore the Zyxel Device to its factory default settings.

6 Connect the **Mode** button to switch between Standalone and Nebula Cloud Management mode. Press the button for more than 5 seconds and less than 10 seconds to switch between Standalone and Nebula Cloud Management mode.

7 Connect the **LED** button to turn the LEDs on or off. Press the button for more than 5 seconds and less than 10 seconds to turn the LEDs on or off.

8 Connect the **LED** indicator to see the Zyxel Device's status.

9 Connect the **Kensington lock** to secure the Zyxel Device to a fixed object.

1 将 **LAN** 端口连接至支持 IEEE 802.3bt 或 IEEE 802.3at PoE 的 PoE 交换机，使用以太网线。

2 将 **PWR** 端口连接至电源适配器（单独销售）和电源。

3 将 **USB** 端口连接至 USB 存储设备，用于存储文件。

4 将 **Console** 端口连接至您的计算机，使用 RJ-45 转 DB9 线缆进行本地管理。

5 连接 **Reset** 按钮，将 Zyxel Device 恢复至出厂默认设置。按住该按钮超过 5 秒但少于 10 秒，重启 Zyxel Device。按住该按钮超过 10 秒，将 Zyxel Device 恢复至出厂默认设置。

6 连接 **Mode** 按钮，在 Standalone 和 Nebula Cloud Management 模式之间切换。按住该按钮超过 5 秒但少于 10 秒，在 Standalone 和 Nebula Cloud Management 模式之间切换。

7 连接 **LED** 按钮，开启或关闭 LED。按住该按钮超过 5 秒但少于 10 秒，开启或关闭 LED。

8 连接 **LED** 指示灯，查看 Zyxel Device 的状态。

9 连接 **Kensington lock**，将 Zyxel Device 固定至固定物体。

Network Registration with the App

Use the Nebula app to register the Zyxel Device to Nebula.

Where to Find the QR Code

Zyxel Device Label or the Quick Start Guide

Nebula App

1 Install and open the Nebula app. Create a Nebula account if you do not have one.

2 Select a site to manage the Zyxel Device, or create a new site.

3 Click **Add Device** and scan the Zyxel Device's QR code. You can find the QR code on the Zyxel Device label or the Quick Start Guide.

4 Click **Add** to register the Zyxel Device to the site.

5 Click **Configure** > **Access point** > **SSID settings** to configure the SSID settings.

6 Click **Configure** > **Access point** > **Radio settings** to configure the radio settings.

7 Click **Configure** > **Access point** > **Port configure** to configure the port settings.

8 Click **Configure** > **Access point** > **Mesh mode** to configure the mesh mode.

9 Click **Configure** > **Access point** > **Mesh topology** to view the mesh topology.

10 Click **Configure** > **Access point** > **Mesh steering** to configure the mesh steering.

11 Click **Configure** > **Access point** > **Mesh Wi-Fi** to configure the mesh Wi-Fi.

12 Click **Configure** > **Access point** > **Mesh Ethernet** to configure the mesh Ethernet.

13 Click **Configure** > **Access point** > **Mesh Wi-Fi security** to configure the mesh Wi-Fi security.

14 Click **Configure** > **Access point** > **Mesh Wi-Fi advanced** to configure the mesh Wi-Fi advanced.

15 Click **Configure** > **Access point** > **Mesh Ethernet advanced** to configure the mesh Ethernet advanced.

16 Click **Configure** > **Access point** > **Mesh Wi-Fi MAC filtering** to configure the mesh Wi-Fi MAC filtering.

17 Click **Configure** > **Access point** > **Mesh Ethernet MAC filtering** to configure the mesh Ethernet MAC filtering.

18 Click **Configure** > **Access point** > **Mesh Wi-Fi scheduler** to configure the mesh Wi-Fi scheduler.

19 Click **Configure** > **Access point** > **Mesh Ethernet scheduler** to configure the mesh Ethernet scheduler.

20 Click **Configure** > **Access point** > **Mesh Wi-Fi captive portal** to configure the mesh Wi-Fi captive portal.

21 Click **Configure** > **Access point** > **Mesh Ethernet captive portal** to configure the mesh Ethernet captive portal.

22 Click **Configure** > **Access point** > **Mesh Wi-Fi application QoS** to configure the mesh Wi-Fi application QoS.

23 Click **Configure** > **Access point** > **Mesh Ethernet application QoS** to configure the mesh Ethernet application QoS.

24 Click **Configure** > **Access point** > **Mesh Wi-Fi user QoS** to configure the mesh Wi-Fi user QoS.

25 Click **Configure** > **Access point** > **Mesh Ethernet user QoS** to configure the mesh Ethernet user QoS.

26 Click **Configure** > **Access point** > **Mesh Wi-Fi scheduler** to configure the mesh Wi-Fi scheduler.

27 Click **Configure** > **Access point** > **Mesh Ethernet scheduler** to configure the mesh Ethernet scheduler.

28 Click **Configure** > **Access point** > **Mesh Wi-Fi captive portal** to configure the mesh Wi-Fi captive portal.

29 Click **Configure** > **Access point** > **Mesh Ethernet captive portal** to configure the mesh Ethernet captive portal.

30 Click **Configure** > **Access point** > **Mesh Wi-Fi application QoS** to configure the mesh Wi-Fi application QoS.

31 Click **Configure** > **Access point** > **Mesh Ethernet application QoS** to configure the mesh Ethernet application QoS.

32 Click **Configure** > **Access point** > **Mesh Wi-Fi user QoS** to configure the mesh Wi-Fi user QoS.

33 Click **Configure** > **Access point** > **Mesh Ethernet user QoS** to configure the mesh Ethernet user QoS.

34 Click **Configure** > **Access point** > **Mesh Wi-Fi scheduler** to configure the mesh Wi-Fi scheduler.

35 Click **Configure** > **Access point** > **Mesh Ethernet scheduler** to configure the mesh Ethernet scheduler.

36 Click **Configure** > **Access point** > **Mesh Wi-Fi captive portal** to configure the mesh Wi-Fi captive portal.

37 Click **Configure** > **Access point** > **Mesh Ethernet captive portal** to configure the mesh Ethernet captive portal.

38 Click **Configure** > **Access point** > **Mesh Wi-Fi application QoS** to configure the mesh Wi-Fi application QoS.

39 Click **Configure** > **Access point** > **Mesh Ethernet application QoS** to configure the mesh Ethernet application QoS.

40 Click **Configure** > **Access point** > **Mesh Wi-Fi user QoS** to configure the mesh Wi-Fi user QoS.

41 Click **Configure** > **Access point** > **Mesh Ethernet user QoS** to configure the mesh Ethernet user QoS.

42 Click **Configure** > **Access point** > **Mesh Wi-Fi scheduler** to configure the mesh Wi-Fi scheduler.

43 Click **Configure** > **Access point** > **Mesh Ethernet scheduler** to configure the mesh Ethernet scheduler.

44 Click **Configure** > **Access point** > **Mesh Wi-Fi captive portal** to configure the mesh Wi-Fi captive portal.

45 Click **Configure** > **Access point** > **Mesh Ethernet captive portal** to configure the mesh Ethernet captive portal.

46 Click **Configure** > **Access point** > **Mesh Wi-Fi application QoS** to configure the mesh Wi-Fi application QoS.

47 Click **Configure** > **Access point** > **Mesh Ethernet application QoS** to configure the mesh Ethernet application QoS.

48 Click **Configure** > **Access point** > **Mesh Wi-Fi user QoS** to configure the mesh Wi-Fi user QoS.

49 Click **Configure** > **Access point** > **Mesh Ethernet user QoS** to configure the mesh Ethernet user QoS.

50 Click **Configure** > **Access point** > **Mesh Wi-Fi scheduler** to configure the mesh Wi-Fi scheduler.

51 Click **Configure** > **Access point** > **Mesh Ethernet scheduler** to configure the mesh Ethernet scheduler.

52 Click **Configure** > **Access point** > **Mesh Wi-Fi captive portal** to configure the mesh Wi-Fi captive portal.

53 Click **Configure** > **Access point** > **Mesh Ethernet captive portal** to configure the mesh Ethernet captive portal.

54 Click **Configure** > **Access point** > **Mesh Wi-Fi application QoS** to configure the mesh Wi-Fi application QoS.

55 Click **Configure** > **Access point** > **Mesh Ethernet application QoS** to configure the mesh Ethernet application QoS.

56 Click **Configure** > **Access point** > **Mesh Wi-Fi user QoS** to configure the mesh Wi-Fi user QoS.

57 Click **Configure** > **Access point** > **Mesh Ethernet user QoS** to configure the mesh Ethernet user QoS.

58 Click **Configure** > **Access point** > **Mesh Wi-Fi scheduler** to configure the mesh Wi-Fi scheduler.

59 Click **Configure** > **Access point** > **Mesh Ethernet scheduler** to configure the mesh Ethernet scheduler.

60 Click **Configure** > **Access point** > **Mesh Wi-Fi captive portal** to configure the mesh Wi-Fi captive portal.

61 Click **Configure** > **Access point** > **Mesh Ethernet captive portal** to configure the mesh Ethernet captive portal.

62 Click **Configure** > **Access point** > **Mesh Wi-Fi application QoS** to configure the mesh Wi-Fi application QoS.

63 Click **Configure** > **Access point** > **Mesh Ethernet application QoS** to configure the mesh Ethernet application QoS.

64 Click **Configure** > **Access point** > **Mesh Wi-Fi user QoS** to configure the mesh Wi-Fi user QoS.

65 Click **Configure** > **Access point** > **Mesh Ethernet user QoS** to configure the mesh Ethernet user QoS.

66 Click **Configure** > **Access point** > **Mesh Wi-Fi scheduler** to configure the mesh Wi-Fi scheduler.

67 Click **Configure** > **Access point** > **Mesh Ethernet scheduler** to configure the mesh Ethernet scheduler.

68 Click **Configure** > **Access point** > **Mesh Wi-Fi captive portal** to configure the mesh Wi-Fi captive portal.

69 Click **Configure** > **Access point** > **Mesh Ethernet captive portal** to configure the mesh Ethernet captive portal.

70 Click **Configure** > **Access point** > **Mesh Wi-Fi application QoS** to configure the mesh Wi-Fi application QoS.

71 Click **Configure** > **Access point** > **Mesh Ethernet application QoS** to configure the mesh Ethernet application QoS.

72 Click **Configure** > **Access point** > **Mesh Wi-Fi user QoS** to configure the mesh Wi-Fi user QoS.

73 Click **Configure** > **Access point** > **Mesh Ethernet user QoS** to configure the mesh Ethernet user QoS.

74 Click **Configure** > **Access point** > **Mesh Wi-Fi scheduler** to configure the mesh Wi-Fi scheduler.

75 Click **Configure** > **Access point** > **Mesh Ethernet scheduler** to configure the mesh Ethernet scheduler.

76 Click **Configure** > **Access point** > **Mesh Wi-Fi captive portal** to configure the mesh Wi-Fi captive portal.

77 Click **Configure** > **Access point** > **Mesh Ethernet captive portal** to configure the mesh Ethernet captive portal.

78 Click **Configure** > **Access point** > **Mesh Wi-Fi application QoS** to configure the mesh Wi-Fi application QoS.

79 Click **Configure** > **Access point** > **Mesh Ethernet application QoS** to configure the mesh Ethernet application QoS.

80 Click **Configure** > **Access point** > **Mesh Wi-Fi user QoS** to configure the mesh Wi-Fi user QoS.

81 Click **Configure** > **Access point** > **Mesh Ethernet user QoS** to configure the mesh Ethernet user QoS.

82 Click **Configure** > **Access point** > **Mesh Wi-Fi scheduler** to configure the mesh Wi-Fi scheduler.

83 Click **Configure** > **Access point** > **Mesh Ethernet scheduler** to configure the mesh Ethernet scheduler.

84 Click **Configure** > **Access point** > **Mesh Wi-Fi captive portal** to configure the mesh Wi-Fi captive portal.

85 Click **Configure** > **Access point** > **Mesh Ethernet captive portal** to configure the mesh Ethernet captive portal.

86 Click **Configure** > **Access point** > **Mesh Wi-Fi application QoS** to configure the mesh Wi-Fi application QoS.

87 Click **Configure** > **Access point** > **Mesh Ethernet application QoS** to configure the mesh Ethernet application QoS.

88 Click **Configure** > **Access point** > **Mesh Wi-Fi user QoS** to configure the mesh Wi-Fi user QoS.

89 Click **Configure** > **Access point** > **Mesh Ethernet user QoS** to configure the mesh Ethernet user QoS.

90 Click **Configure** > **Access point** > **Mesh Wi-Fi scheduler** to configure the mesh Wi-Fi scheduler.

91 Click **Configure** > **Access point** > **Mesh Ethernet scheduler** to configure the mesh Ethernet scheduler.

92 Click **Configure** > **Access point** > **Mesh Wi-Fi captive portal** to configure the mesh Wi-Fi captive portal.

93 Click **Configure** > **Access point** > **Mesh Ethernet captive portal** to configure the mesh Ethernet captive portal.

94 Click **Configure** > **Access point** > **Mesh Wi-Fi application QoS** to configure the mesh Wi-Fi application QoS.

95 Click **Configure** > **Access point** > **Mesh Ethernet application QoS** to configure the mesh Ethernet application QoS.

96 Click **Configure** > **Access point** > **Mesh Wi-Fi user QoS** to configure the mesh Wi-Fi user QoS.

97 Click **Configure** > **Access point** > **Mesh Ethernet user QoS** to configure the mesh Ethernet user QoS.

98 Click **Configure** > **Access point** > **Mesh Wi-Fi scheduler** to configure the mesh Wi-Fi scheduler.

99 Click **Configure** > **Access point** > **Mesh Ethernet scheduler** to configure the mesh Ethernet scheduler.

100 Click **Configure** > **Access point** > **Mesh Wi-Fi captive portal** to configure the mesh Wi-Fi captive portal.

101 Click **Configure** > **Access point** > **Mesh Ethernet captive portal** to configure the mesh Ethernet captive portal.

102 Click **Configure** > **Access point** > **Mesh Wi-Fi application QoS** to configure the mesh Wi-Fi application QoS.

103 Click **Configure** > **Access point** > **Mesh Ethernet application QoS** to configure the mesh Ethernet application QoS.

104 Click **Configure** > **Access point** > **Mesh Wi-Fi user QoS** to configure the mesh Wi-Fi user QoS.

105 Click **Configure** > **Access point** > **Mesh Ethernet user QoS** to configure the mesh Ethernet user QoS.

106 Click **Configure** > **Access point** > **Mesh Wi-Fi scheduler** to configure the mesh Wi-Fi scheduler.

107 Click **Configure** > **Access point** > **Mesh Ethernet scheduler** to configure the mesh Ethernet scheduler.

108 Click **Configure** > **Access point** > **Mesh Wi-Fi captive portal** to configure the mesh Wi-Fi captive portal.

109 Click **Configure** > **Access point** > **Mesh Ethernet captive portal** to configure the mesh Ethernet captive portal.

110 Click **Configure** > **Access point** > **Mesh Wi-Fi application QoS** to configure the mesh Wi-Fi application QoS.

111 Click **Configure** > **Access point** > **Mesh Ethernet application QoS** to configure the mesh Ethernet application QoS.

112 Click **Configure** > **Access point** > **Mesh Wi-Fi user QoS** to configure the mesh Wi-Fi user QoS.

113 Click **Configure** > **Access point** > **Mesh Ethernet user QoS** to configure the mesh Ethernet user QoS.

114 Click **Configure** > **Access point** > **Mesh Wi-Fi scheduler** to configure the mesh Wi-Fi scheduler.

115 Click **Configure** > **Access point** > **Mesh Ethernet scheduler** to configure the mesh Ethernet scheduler.

116 Click **Configure** > **Access point** > **Mesh Wi-Fi captive portal** to configure the mesh Wi-Fi captive portal.

117 Click **Configure** > **Access point** > **Mesh Ethernet captive portal** to configure the mesh Ethernet captive portal.

118 Click **Configure** > **Access point** > **Mesh Wi-Fi application QoS** to configure the mesh Wi-Fi application QoS.

119 Click **Configure** > **Access point** > **Mesh Ethernet application QoS** to configure the mesh Ethernet application QoS.

120 Click **Configure** > **Access point** > **Mesh Wi-Fi user QoS** to configure the mesh Wi-Fi user QoS.

121 Click **Configure** > **Access point** > **Mesh Ethernet user QoS** to configure the mesh Ethernet user QoS.

122 Click **Configure** > **Access point** > **Mesh Wi-Fi scheduler** to configure the mesh Wi-Fi scheduler.

123 Click **Configure** > **Access point** > **Mesh Ethernet scheduler** to configure the mesh Ethernet scheduler.

124 Click **Configure** > **Access point** > **Mesh Wi-Fi captive portal** to configure the mesh Wi-Fi captive portal.

125 Click **Configure** > **Access point** > **Mesh Ethernet captive portal** to configure the mesh Ethernet captive portal.

126 Click **Configure** > **Access point** > **Mesh Wi-Fi application QoS** to configure the mesh Wi-Fi application QoS.

127 Click **Configure** > **Access point** > **Mesh Ethernet application QoS** to configure the mesh Ethernet application QoS.

128 Click **Configure** > **Access point** > **Mesh Wi-Fi user QoS** to configure the mesh Wi-Fi user QoS.

129 Click **Configure** > **Access point** > **Mesh Ethernet user QoS** to configure the mesh Ethernet user QoS.

130 Click **Configure** > **Access point** > **Mesh Wi-Fi scheduler** to configure the mesh Wi-Fi scheduler.

131 Click **Configure** > **Access point** > **Mesh Ethernet scheduler** to configure the mesh Ethernet scheduler.

132 Click **Configure** > **Access point** > **Mesh Wi-Fi captive portal** to configure the mesh Wi-Fi captive portal.

133 Click **Configure** > **Access point** > **Mesh Ethernet captive portal** to configure the mesh Ethernet captive portal.

134 Click **Configure** > **Access point** > **Mesh Wi-Fi application QoS** to configure the mesh Wi-Fi application QoS.

135 Click **Configure** > **Access point** > **Mesh Ethernet application QoS** to configure the mesh Ethernet application QoS.

136 Click **Configure** > **Access point** > **Mesh Wi-Fi user QoS** to configure the mesh Wi-Fi user QoS.

137 Click **Configure** > **Access point** > **Mesh Ethernet user QoS** to configure the mesh Ethernet user QoS.

138 Click **Configure** > **Access point** > **Mesh Wi-Fi scheduler** to configure the mesh Wi-Fi scheduler.

139 Click **Configure** > **Access point** > **Mesh Ethernet scheduler** to configure the mesh Ethernet scheduler.

140 Click **Configure** > **Access point** > **Mesh Wi-Fi captive portal** to configure the mesh Wi-Fi captive portal.

141 Click **Configure** > **Access point** > **Mesh Ethernet captive portal** to configure the mesh Ethernet captive portal.

142 Click **Configure** > **Access point** > **Mesh Wi-Fi application QoS** to configure the mesh Wi-Fi application QoS.

143 Click **Configure** > **Access point** > **Mesh Ethernet application QoS** to configure the mesh Ethernet application QoS.

144 Click **Configure** > **Access point** > **Mesh Wi-Fi user QoS** to configure the mesh Wi-Fi user QoS.

145 Click **Configure** > **Access point** > **Mesh Ethernet user QoS** to configure the mesh Ethernet user QoS.

146 Click **Configure** > **Access point** > **Mesh Wi-Fi scheduler** to configure the mesh Wi-Fi scheduler.

147 Click **Configure** > **Access point** > **Mesh Ethernet scheduler** to configure the mesh Ethernet scheduler.

148 Click **Configure** > **Access point** > **Mesh Wi-Fi captive portal** to configure the mesh Wi-Fi captive portal.

149 Click **Configure** > **Access point** > **Mesh Ethernet captive portal** to configure the mesh Ethernet captive portal.

150 Click **Configure** > **Access point** > **Mesh Wi-Fi application QoS** to configure the mesh Wi-Fi application QoS.

151 Click **Configure** > **Access point** > **Mesh Ethernet application QoS** to configure the mesh Ethernet application QoS.

152 Click **Configure** > **Access point** > **Mesh Wi-Fi user QoS** to configure the mesh Wi-Fi user QoS.

153 Click **Configure** > **Access point** > **Mesh Ethernet user QoS** to configure the mesh Ethernet user QoS.

154 Click **Configure** > **Access point** > **Mesh Wi-Fi scheduler** to configure the mesh Wi-Fi scheduler.

155 Click **Configure** > **Access point** > **Mesh Ethernet scheduler** to configure the mesh Ethernet scheduler.

156 Click **Configure** > **Access point** > **Mesh Wi-Fi captive portal** to configure the mesh Wi-Fi captive portal.

157 Click **Configure** > **Access point** > **Mesh Ethernet captive portal** to configure the mesh Ethernet captive portal.

158 Click **Configure** > **Access point** > **Mesh Wi-Fi application QoS** to configure the mesh Wi-Fi application QoS.

159 Click **Configure** > **Access point** > **Mesh Ethernet application QoS** to configure the mesh Ethernet application QoS.

160 Click **Configure** > **Access point** > **Mesh Wi-Fi user QoS** to configure the mesh Wi-Fi user QoS.

161 Click **Configure** > **Access point** > **Mesh Ethernet user QoS** to configure the mesh Ethernet user QoS.

162 Click **Configure** > **Access point** > **Mesh Wi-Fi scheduler** to configure the mesh Wi-Fi scheduler.

163 Click **Configure** > **Access point** > **Mesh Ethernet scheduler** to configure the mesh Ethernet scheduler.

164 Click **Configure** > **Access point** > **Mesh Wi-Fi captive portal** to configure the mesh Wi-Fi captive portal.

165 Click **Configure** > **Access point** > **Mesh Ethernet captive portal** to configure the mesh Ethernet captive portal.

166 Click **Configure** > **Access point** > **Mesh Wi-Fi application QoS** to configure the mesh Wi-Fi application QoS.

167 Click **Configure** > **Access point** > **Mesh Ethernet application QoS** to configure the mesh Ethernet application QoS.

168 Click **Configure** > **Access point** > **Mesh Wi-Fi user QoS** to configure the mesh Wi-Fi user QoS.

169 Click **Configure** > **Access point** > **Mesh Ethernet user QoS** to configure the mesh Ethernet user QoS.

170 Click **Configure** > **Access point** > **Mesh Wi-Fi scheduler** to configure the mesh Wi-Fi scheduler.

171 Click **Configure** > **Access point** > **Mesh Ethernet scheduler** to configure the mesh Ethernet scheduler.

172 Click **Configure** > **Access point** > **Mesh Wi-Fi captive portal** to configure the mesh Wi-Fi captive portal.

173 Click **Configure** > **Access point** > **Mesh Ethernet captive portal** to configure the mesh Ethernet captive portal.

174 Click **Configure** > **Access point** > **Mesh Wi-Fi application QoS** to configure the mesh Wi-Fi application QoS.

175 Click **Configure** > **Access point** > **Mesh Ethernet application QoS** to configure the mesh Ethernet application QoS.

176 Click **Configure** > **Access point** > **Mesh Wi-Fi user QoS** to configure the mesh Wi-Fi user QoS.

177 Click **Configure** > **Access point** > **Mesh Ethernet user QoS** to configure the mesh Ethernet user QoS.

178 Click **Configure** > **Access point** > **Mesh Wi-Fi scheduler** to configure the mesh Wi-Fi scheduler.

179 Click **Configure** > **Access point** > **Mesh Ethernet scheduler** to configure the mesh Ethernet scheduler.

180 Click **Configure** > **Access point** > **Mesh Wi-Fi captive portal** to configure the mesh Wi-Fi captive portal.

181 Click **Configure** > **Access point** > **Mesh Ethernet captive portal** to configure the mesh Ethernet captive portal.

182 Click **Configure** > **Access point** > **Mesh Wi-Fi application QoS** to configure the mesh Wi-Fi application QoS.

183 Click **Configure** > **Access point** > **Mesh Ethernet application QoS** to configure the mesh Ethernet application QoS.

184 Click **Configure** > **Access point** > **Mesh Wi-Fi user QoS** to configure the mesh Wi-Fi user QoS.

185 Click **Configure** > **Access point** > **Mesh Ethernet user QoS** to configure the mesh Ethernet user QoS.

186 Click **Configure** > **Access point** > **Mesh Wi-Fi scheduler** to configure the mesh Wi-Fi scheduler.

187 Click **Configure** > **Access point** > **Mesh Ethernet scheduler** to configure the mesh Ethernet scheduler.

188 Click **Configure** > **Access point** > **Mesh Wi-Fi captive portal** to configure the mesh Wi-Fi captive portal.

189 Click **Configure** > **Access point** > **Mesh Ethernet captive portal** to configure the mesh Ethernet captive portal.

190 Click **Configure** > **Access point** > **Mesh Wi-Fi application QoS** to configure the mesh Wi-Fi application QoS.

191 Click **Configure** > **Access point** > **Mesh Ethernet application QoS** to configure the mesh Ethernet application QoS.

192 Click **Configure** > **Access point** > **Mesh Wi-Fi user QoS** to configure the mesh Wi-Fi user QoS.

193 Click **Configure** > **Access point** > **Mesh Ethernet user QoS** to configure the mesh Ethernet user QoS.

194 Click **Configure** > **Access point** > **Mesh Wi-Fi scheduler** to configure the mesh Wi-Fi scheduler.

195 Click **Configure** > **Access point** > **Mesh Ethernet scheduler** to configure the mesh Ethernet scheduler.

196 Click **Configure** > **Access point** > **Mesh Wi-Fi captive portal** to configure the mesh Wi-Fi captive portal.

197 Click **Configure** > **Access point** > **Mesh Ethernet captive portal** to configure the mesh Ethernet captive portal.

198 Click **Configure** > **Access point** > **Mesh Wi-Fi application QoS** to configure the mesh Wi-Fi application QoS.

199 Click **Configure** > **Access point** > **Mesh Ethernet application QoS** to configure the mesh Ethernet application QoS.

200 Click **Configure** > **Access point** > **Mesh Wi-Fi user QoS** to configure the mesh Wi-Fi user QoS.

201 Click **Configure** > **Access point** > **Mesh Ethernet user QoS** to configure the mesh Ethernet user QoS.

202 Click **Configure** > **Access point** > **Mesh Wi-Fi scheduler** to configure the mesh Wi-Fi scheduler.

203 Click **Configure** > **Access point** > **Mesh Ethernet scheduler** to configure the mesh Ethernet scheduler.

204 Click **Configure** > **Access point** > **Mesh Wi-Fi captive portal** to configure the mesh Wi-Fi captive portal.

205 Click **Configure** > **Access point** > **Mesh Ethernet captive portal** to configure the mesh Ethernet captive portal.

206 Click **Configure** > **Access point** > **Mesh Wi-Fi application QoS** to configure the mesh Wi-Fi application QoS.

207 Click **Configure** > **Access point** > **Mesh Ethernet application QoS** to configure the mesh Ethernet application QoS.

208 Click **Configure** > **Access point** > **Mesh Wi-Fi user QoS** to configure the mesh Wi-Fi user QoS.

209 Click **Configure** > **Access point** > **Mesh Ethernet user QoS** to configure the mesh Ethernet user QoS.

210 Click **Configure** > **Access point** > **Mesh Wi-Fi scheduler** to configure the mesh Wi-Fi scheduler.

211 Click **Configure** > **Access point** > **Mesh Ethernet scheduler** to configure the mesh Ethernet scheduler.

212 Click **Configure** > **Access point** > **Mesh Wi-Fi captive portal** to configure the mesh Wi-Fi captive portal.

213 Click **Configure** > **Access point** > **Mesh Ethernet captive portal** to configure the mesh Ethernet captive portal.

214 Click **Configure** > **Access point** > **Mesh Wi-Fi application QoS** to configure the mesh Wi-Fi application QoS.

215 Click **Configure** > **Access point** > **Mesh Ethernet application QoS** to configure the mesh Ethernet application QoS.

216 Click **Configure** > **Access point** > **Mesh Wi-Fi user QoS** to configure the mesh Wi-Fi user QoS.

217 Click **Configure** > **Access point** > **Mesh Ethernet user QoS** to configure the mesh Ethernet user QoS.

218 Click **Configure** > **Access point** > **Mesh Wi-Fi scheduler** to configure the mesh Wi-Fi scheduler.

219 Click **Configure** > **Access point** > **Mesh Ethernet scheduler** to configure the mesh Ethernet scheduler.

220 Click **Configure** > **Access point** > **Mesh Wi-Fi captive portal** to configure the mesh Wi-Fi captive portal.

221 Click **Configure** > **Access point** > **Mesh Ethernet captive portal** to configure the mesh Ethernet captive portal.

222 Click **Configure** > **Access point** > **Mesh Wi-Fi application QoS** to configure the mesh Wi-Fi application QoS.

223 Click **Configure** > **Access point** > **Mesh Ethernet application QoS** to configure the mesh Ethernet application QoS.

224 Click **Configure** > **Access point** > **Mesh Wi-Fi user QoS** to configure the mesh Wi-Fi user QoS.

225 Click **Configure** > **Access point** > **Mesh Ethernet user QoS** to configure the mesh Ethernet user QoS.

226 Click **Configure** > **Access point** > **Mesh Wi-Fi scheduler** to configure the mesh Wi-Fi scheduler.

227 Click **Configure** > **Access point** > **Mesh Ethernet scheduler** to configure the mesh Ethernet scheduler.

228 Click **Configure** > **Access point** > **Mesh Wi-Fi captive portal** to configure the mesh Wi-Fi captive portal.

229 Click **Configure** > **Access point** > **Mesh Ethernet captive portal** to configure the mesh Ethernet captive portal.

230 Click **Configure** > **Access point** > **Mesh Wi-Fi application QoS** to configure the mesh Wi-Fi application QoS.

231 Click **Configure** > **Access point** > **Mesh Ethernet application QoS** to configure the mesh Ethernet application QoS.

232 Click **Configure** > **Access point** > **Mesh Wi-Fi user QoS** to configure the mesh Wi-Fi user QoS.

233 Click **Configure** > **Access point** > **Mesh Ethernet user QoS** to configure the mesh Ethernet user QoS.

234 Click **Configure** > **Access point** > **Mesh Wi-Fi scheduler** to configure the mesh Wi-Fi scheduler.

235 Click **Configure** > **Access point** > **Mesh Ethernet scheduler** to configure the mesh Ethernet scheduler.

236 Click **Configure** > **Access point** > **Mesh Wi-Fi captive portal** to configure the mesh Wi-Fi captive portal.

237 Click **Configure** > **Access point** > **Mesh Ethernet captive portal** to configure the mesh Ethernet captive portal.

238 Click **Configure** > **Access point** > **Mesh Wi-Fi application QoS** to configure the mesh Wi-Fi application QoS.

239 Click **Configure** > **Access point** > **Mesh Ethernet application QoS** to configure the mesh Ethernet application QoS.

240 Click **Configure** > **Access point** > **Mesh Wi-Fi user QoS** to configure the mesh Wi-Fi user QoS.

241 Click **Configure** > **Access point** > **Mesh Ethernet user QoS** to configure the mesh Ethernet user QoS.

242 Click **Configure** > **Access point** > **Mesh Wi-Fi scheduler** to configure the mesh Wi-Fi scheduler.

243 Click **Configure** > **Access point** > **Mesh Ethernet scheduler** to configure the mesh Ethernet scheduler.

244 Click **Configure** > **Access point** > **Mesh Wi-Fi captive portal** to configure the mesh Wi-Fi captive portal.

245 Click **Configure** > **Access point** > **Mesh Ethernet captive portal** to configure the mesh Ethernet captive portal.

246 Click **Configure** > **Access point** > **Mesh Wi-Fi application QoS** to configure the mesh Wi-Fi application QoS.

247 Click **Configure** > **Access point** > **Mesh Ethernet application QoS** to configure the mesh Ethernet application QoS.

248 Click **Configure** > **Access point** > **Mesh Wi-Fi user QoS** to configure the mesh Wi-Fi user QoS.

249 Click **Configure** > **Access point** > **Mesh Ethernet user QoS** to configure the mesh Ethernet user QoS.

250 Click **Configure** > **Access point** > **Mesh Wi-Fi scheduler** to configure the mesh Wi-Fi scheduler.

251 Click **Configure** > **Access point** > **Mesh Ethernet scheduler** to configure the mesh Ethernet scheduler.

252 Click **Configure** > **Access point** > **Mesh Wi-Fi captive portal** to configure the mesh Wi-Fi captive portal.

253 Click **Configure** > **Access point** > **Mesh Ethernet captive portal** to configure the mesh Ethernet captive portal.

254 Click **Configure** > **Access point** > **Mesh Wi-Fi application QoS** to configure the mesh Wi-Fi application QoS.

255 Click **Configure** > **Access point** > **Mesh Ethernet application QoS** to configure the mesh Ethernet application QoS.

256 Click **Configure** > **Access point** > **Mesh Wi-Fi user QoS** to configure the mesh Wi-Fi user QoS.

257 Click **Configure** > **Access point** > **Mesh Ethernet user QoS** to configure the mesh Ethernet user QoS.

258 Click **Configure** > **Access point** > **Mesh Wi-Fi scheduler** to configure the mesh Wi-Fi scheduler.

259 Click **Configure** > **Access point** > **Mesh Ethernet scheduler** to configure the mesh Ethernet scheduler.

260 Click **Configure** > **Access point** > **Mesh Wi-Fi captive portal** to configure the mesh Wi-Fi captive portal.

261 Click **Configure** > **Access point** > **Mesh Ethernet captive portal** to configure the mesh Ethernet captive portal.

262 Click **Configure** > **Access point** > **Mesh Wi-Fi application QoS** to configure the mesh Wi-Fi application QoS.

263 Click **Configure** > **Access point** > **Mesh Ethernet application QoS** to configure the mesh Ethernet application QoS.

264 Click **Configure** > **Access point** > **Mesh Wi-Fi user QoS** to configure the mesh Wi-Fi user QoS.

265 Click **Configure** > **Access point** > **Mesh Ethernet user QoS** to configure the mesh Ethernet user QoS.

266 Click **Configure** > **Access point** > **Mesh Wi-Fi scheduler** to configure the mesh Wi-Fi scheduler.

267 Click **Configure** > **Access point** > **Mesh Ethernet scheduler** to configure the mesh Ethernet scheduler.

268 Click **Configure** > **Access point** > **Mesh Wi-Fi captive portal** to configure the mesh Wi-Fi captive portal.

269 Click **Configure** > **Access point** > **Mesh Ethernet captive portal** to configure the mesh Ethernet captive portal.

270 Click **Configure** > **Access point** > **Mesh Wi-Fi application QoS** to configure the mesh Wi-Fi application QoS.

271 Click **Configure** > **Access point** > **Mesh Ethernet application QoS** to configure the mesh Ethernet application QoS.

272 Click **Configure** > **Access point** > **Mesh Wi-Fi user QoS** to configure the mesh Wi-Fi user QoS.

273 Click **Configure** > **Access point** > **Mesh Ethernet user QoS** to configure the mesh Ethernet user QoS.

274 Click **Configure** > **Access point** > **Mesh Wi-Fi scheduler** to configure the mesh Wi-Fi scheduler.

275 Click **Configure** > **Access point** > **Mesh Ethernet scheduler** to configure the mesh Ethernet scheduler.

276 Click **Configure** > **Access point** > **Mesh Wi-Fi captive portal** to configure the mesh Wi-Fi captive portal.

277 Click **Configure** > **Access point** > **Mesh Ethernet captive portal** to configure the mesh Ethernet captive portal.

278 Click **Configure** > **Access point** > **Mesh Wi-Fi application QoS** to configure the mesh Wi-Fi application QoS.

279 Click **Configure** > **Access point** > **Mesh Ethernet application QoS** to configure the mesh Ethernet application QoS.

280 Click **Configure** > **Access point** > **Mesh Wi-Fi user QoS** to configure the mesh Wi-Fi user QoS.

281 Click **Configure** > **Access point** > **Mesh Ethernet user QoS** to configure the mesh Ethernet user QoS.

282 Click **Configure** > **Access point** > **Mesh Wi-Fi scheduler** to configure the mesh Wi-Fi scheduler.

283 Click **Configure** > **Access point** > **Mesh Ethernet scheduler** to configure the mesh Ethernet scheduler.

284 Click **Configure** > **Access point** > **Mesh Wi-Fi captive portal** to configure the mesh Wi-Fi captive portal.

285 Click **Configure** > **Access point** > **Mesh Ethernet captive portal** to configure the mesh Ethernet captive portal.

286 Click **Configure** > **Access point** > **Mesh Wi-Fi application QoS** to configure the mesh Wi-Fi application QoS.

287 Click **Configure** > **Access point** > **Mesh Ethernet application QoS** to configure the mesh Ethernet application QoS.

288 Click **Configure** > **Access point** > **Mesh Wi-Fi user QoS** to configure the mesh Wi-Fi user QoS.

289 Click **Configure** > **Access point** > **Mesh Ethernet user QoS** to configure the mesh Ethernet user QoS.

290 Click **Configure** > **Access point** > **Mesh Wi-Fi scheduler** to configure the mesh Wi-Fi scheduler.

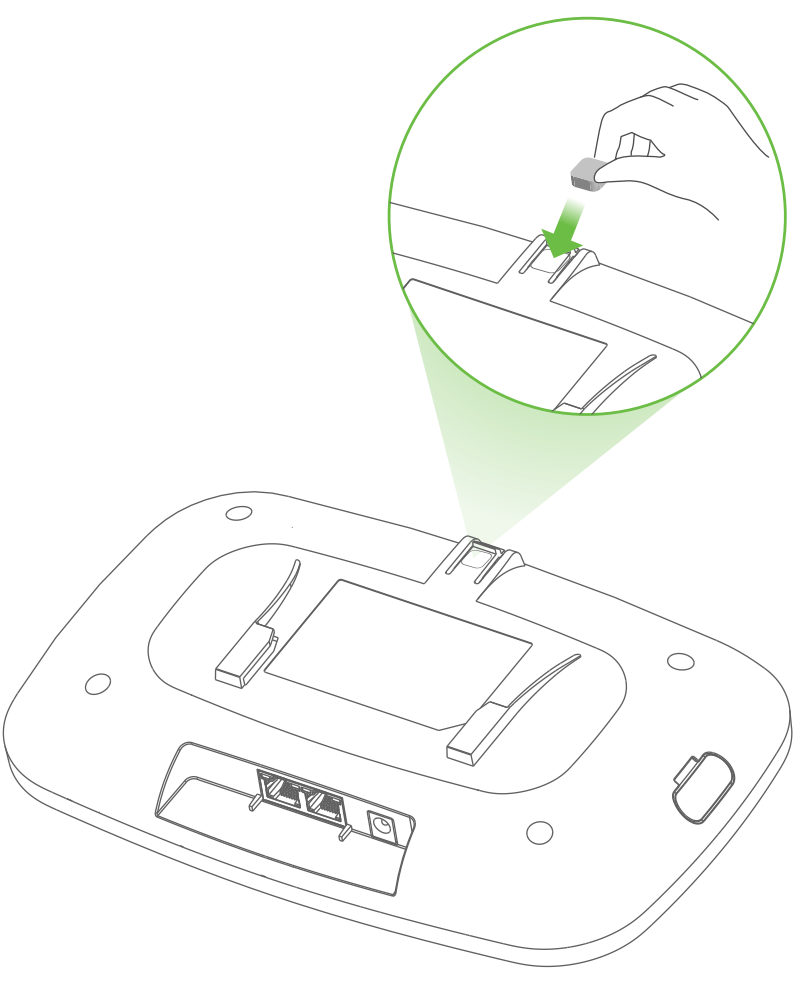
Mounting Options

Desk Placement



EN ① Remove the adhesive backing from the rubber pad.
② Align and attach the rubber pad to the gray square to stabilize the Zyxel Device.
③ Place the Zyxel Device on the desk.

DE ① Entfernen Sie die Klebeschicht vom Gummipolster.
② Richten Sie das Gummipolster aus und befestigen Sie es an dem grauen Quadrat, um den Zyxel Device zu stabilisieren.
③ Stellen Sie den Zyxel Device auf den Schreibtisch.

ES ① Retire el respaldo adhesivo de la almohadilla de goma.
② Alinee y acople la almohadilla de goma al cuadrado gris para estabilizar el Zyxel Device.
③ Coloque el Zyxel Device en el escritorio.

FR ① Retirez le support adhésif du tampon en caoutchouc.
② Alignez et fixez le tampon en caoutchouc sur le carré gris pour stabiliser le Zyxel Device.
③ Placez le Zyxel Device sur le bureau.

IT ① Rimuovere la copertura adesiva dal cuscinetto di gomma.
② Allineare e attaccare il cuscinetto di gomma sul quadrato grigio per stabilizzare il Zyxel Device.
③ Mettere il Zyxel Device sul tavolo.

SE ① Ta bort den självhäftande baksidan från gummikudden.
② Rikta in och fäst gummikudden på den grå fyrkanten för att stabilisera Zyxel Device.
③ Placera Zyxel Device på skrivbordet.

CZ ① Z gumové podložky sundejte zadní adhezivní vrstvu.
② Stabilizujte zařízení Zyxel Device zarovnáním a připevněním gumové podložky k šedivému čtverci.
③ Položte zařízení Zyxel Device na stůl.

HU ① Távolítsa el a gumipárna öntapadós felületéről a fóliát.
② Illessze a gumipárnát a szürke négyszögre, hogy stabilizálja az Zyxel Device egységet.
③ Helyezze az Zyxel Device egységet az asztalra.

PL ① Usunąć samoprzylepny podkład z podkładki gumowej.
② Wyrównać i przymocować gumową podkładkę do szarego prostokąta w celu stabilizacji urządzenia Zyxel Device.
③ Umieścić urządzenie Zyxel Device na biurku.

RO ① Îndepărtați folia adezivă de protecție de pe plăcuța de cauciuc.
② Aliniați și lipiți plăcuța de cauciuc pe zona pătrată gri pentru a stabiliza Zyxel Device.
③ Puneți Zyxel Device pe birou.

SK ① Z gumovej podložky odstráňte zadnú adhezívnu vrstvu.
② Stabilizujte zariadenie Zyxel Device zarovnaním a pripevnením gumovej podložky k šedivému štvorcu.
③ Položte zariadenie Zyxel Device na stôl.

SI ① Lepilno podlago odstranite z gumijasto blazinico.
② Gumijasto blazinico povežite in pritrdite na siv kvadrat in stabilizirajte Zyxel Device.
③ Zyxel Device namestite na mizo.

BG ① Свалете покритието на залепващата лента на гумената подложка.
② Изравнете и прикачете гумената подложка към сивото квадратче, за да стабилизирате Zyxel Device.
③ Поставете Zyxel Device на бюрото.

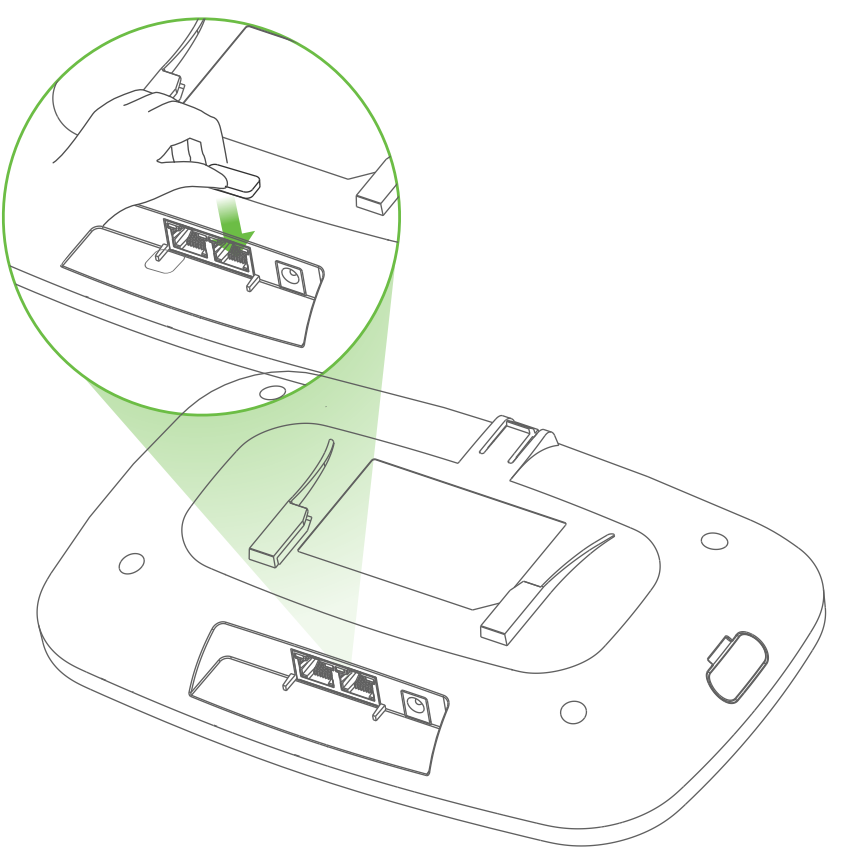
RU ① Снимите клейкую пленку с резиновой подкладки.
② Совместите и прикрепите резиновую подкладку к серому квадрату, чтобы обеспечить устойчивость Zyxel Device.
③ Установите Zyxel Device на столе.

UA ① Зніміть клейку підкладку з гумової прокладки.
② Сумістіть та прикріпіть гумову прокладку до сірого квадрату, щоб забезпечити стійкість Zyxel Device.
③ Розташуйте Zyxel Device на столі.

简中 ① 去除橡胶垫上的胶贴。
② 将橡胶垫对准灰色方块并安装，固定 Zyxel Device。
③ 将 Zyxel Device 置于桌面上。

繁中 ① 撕開橡膠墊的背膠貼紙。
② 將橡膠墊對齊灰色方塊並安裝，可固定 Zyxel Device。
③ 將 Zyxel Device 放在桌面上。

Attaching the Connection Stabilization Pad (Optional)



EN ① Remove the adhesive backing from the rubber pad.
② Attach the rubber pad in front of the **UPLINK** port. This keeps the Ethernet cable steady for a stable connection speed.

DE ① Entfernen Sie die Klebeschicht vom Gummipolster.
② Bringen Sie die Gummitülle vor dem **UPLINK**-Port an. Dies hält das Ethernet-Kabel stabil für eine stabile Verbindungsgeschwindigkeit.

ES ① Retire el respaldo adhesivo de la almohadilla de goma.
② Fije la almohadilla de goma frente al puerto **UPLINK**. Esto mantiene fijo el cable Ethernet para una velocidad de conexión estable.

FR ① Retirez le support adhésif du tampon en caoutchouc.
② Fixez le tampon en caoutchouc devant le port **UPLINK**. Cela permet de maintenir le câble Ethernet stable et donc une vitesse de connexion stable.

IT ① Rimuovere la copertura adesiva dal cuscinetto di gomma.
② Fissare il cuscinetto di gomma davanti alla porta **UPLINK**. Ciò mantiene il cavo Ethernet stabile per una velocità di connessione stabile.

SE ① Ta bort den självhäftande baksidan från gummikudden.
② Fäst gummidynan framför **UPLINK**-porten. Detta bibehåller Ethernet-kabeln stadig för en stabil anslutningshastighet.

CZ ① Z gumové podložky sundejte zadní adhezivní vrstvu.
② Připevněte gumovou podložku před **UPLINK** port. Toto udržuje ethernetový kabel stabilně zafixovaný pro bezvýpadkový provoz.

HU ① Távolítsa el a gumipárna öntapadós felületéről a fóliát.
② Csatlakoztassa a gumi párnát az **UPLINK** port elé. Ez stabilan tartja az Ethernet kábelt a stabil csatlakozási sebesség érdekében.

PL ① Usunąć samoprzylepny podkład z podkładki gumowej.
② Zamocuj gumową podkładkę przed portem **UPLINK**. Pomoże to w utrzymaniu kabla sieciowego na miejscu i ustabilizuje szybkość połączenia.

RO ① Îndepărtați folia adezivă de protecție de pe plăcuța de cauciuc.
② Montati garnitura de cauciuc in fata portului de **UPLINK**. Montarea acesteia va ajuta si la fixarea cablului de internet si evitarea unor eventuale scaderi de viteza din cauza conexiuniii instabile.

SK ① Z gumovej podložky odstráňte zadnú adhezívnu vrstvu.
② Pripevnite gumovú podložku pred **UPLINK** port. Tá udržuje ethernetový kábel zafixovaný pre stabilné fungovanie.

SI ① Lepilno podlago odstranite z gumijasto blazinico
② Pritrdite gumijasto podlogo pred vrata **UPLINK**. To ohranja ethernetni kabel stabilen za stabilno hitrost povezave.

BG ① Свалете покритието на залепващата лента на гумената подложка.
② Прикрепете гумената планка пред **UPLINK** порта. Това осигурява неподвижност на Етернет кабела и стабилна скорост на връзката.

RU ① Снимите клейкую пленку с резиновой подкладки.
② Прикрепите резиновую прокладку перед портом **UPLINK**. Это обеспечивает устойчивость кабеля Ethernet для стабильной скорости соединения.

UA ① Зніміть клейку підкладку з гумової прокладки.
② Закріпіть гумову прокладку перед портом **UPLINK**. Це забезпечує стабільність кабелю Ethernet для стабільної швидкості з'єднання.

简中 ① 去除橡胶垫上的胶贴。
② 将橡胶垫固定到 **UPLINK** 端口前。这有助于稳固以太网线缆，实现稳定的连接速度。

繁中 ① 撕開橡膠墊的背膠貼紙。
② 將橡膠墊黏在 **UPLINK** 埠前方。這有助於乙太網路線保持穩固，以提供穩定的連線速度。
